

FAITH AND THE ENVIRONMENT

Presentation and Discussion

***“Creation Story: Forming an
Ecological Consciousness”***

February 25, 2010

6:30 p.m.

Beata Hall

Benedictine University
1500 North Fifth Street

Benedictine University at Springfield’s Interdisciplinary Committee will host **Sr. Sharon Zayac** for a presentation centering on **ecology, cosmology, and the environment**. The event is free and open to the public. An audience Q&A session will be included.

The nature of the event is informative. It is not intended as a forum for proselytization or debate but rather as an edifying venue focused on the examination of the diversity of the human experience in the spirit of the open and exigent pursuits of truth and social justice rooted in both the liberal-arts tradition and the campus’s Catholic identity.

*Those who speak of the incompatibility of science and religion
either make science say that which it never said or
make religion say that which it never taught. ~ Pope Pius XI*

*Science can purify religion from error and superstition;
religion can purify science from idolatry and false absolutes.
Each can draw the other into a wider world,
a world in which both can flourish. ~ Pope John Paul II*
